In words, how was your course experience?

Excellent. perfect environment, lovely people, have had a great week here.

Have learnt a massive amount in all areas covered, I now have a much greater understanding of head shapes, clipper control, the weight distribution of hair, scissor & clipper over comb techniques, sectioning, & also drying & styling techniques alongside washing & product information that was massively helpful.

I feel much more confident in my ability, & am genuinely surprised as to how much I've picked up in just one week.
