In words, how was your course experience?

I have loved this course. Still has been informative, educational, polite, friendly and has managed his time between us well.

Clipper Skills: All the techniques and processes that I was hoping to learn have been covered in depth. The flow of clients to mirror a real Barber's Experience has been very helpful tool.

Shaving: Has been covered thoroughly. The processes in place give me the structure I need to be able to continue this with confidence.
